I am seeking an opportunity in the field of systems development and artificial intelligence. I have strong teamwork skills and a great ability to learn new skills.

Skills

- Intermediate knowledge of machine learning with tools using Python
- Intermediate knowledge of TensorFlow and PyTorch
- Knowledge of neural networks, YOLOv5, YOLOv8, and YOLOv9
- Basic knowledge of React and Angular
- Full knowledge of HTML and CSS

- Intermediate programming knowledge in Java and C
- Full knowledge of databases (MySQL, SQLite)
- Full knowledge of Node.js, JS, and TSX
- Full knowledge of HTTP requests
- Knowledge of consuming REST APIs

Experience

01/06/2023 – 31/05/2024
Researcher / IFSULDEMINAS Campus Pouso Alegre
This research and innovation project aims to develop a mobile and web application with artificial intelligence recognition to identify, map, and catalog wild species found in the municipality of Pouso Alegre and surrounding areas.

26/08/2024 – 25/08/2025
Researcher / IFSULDEMINAS Campus Pouso Alegre
This research and innovation project aims to develop a mobile and web application with artificial intelligence recognition to identify, map, and catalog wild species found in the municipality of Pouso Alegre and surrounding areas.

Education

**Integrated Technical Course in Computer Science /
IFSULDEMINAS, Pouso Alegre**
